

About Us

We're a team of dedicated blue-collar workers who understand the challenges faced by paving and excavation companies. With a deep appreciation for the industry's demands, we set out to create innovative solutions that address these challenges head-on.

CMC Equipment's Badazz Broom, a testament to our commitment to excellence, was born out of a need for efficiency and productivity. The Badazz Broom eliminates unnecessary labor.

Our goal is to assist companies like yours in overcoming labor scarcity by delivering solutions that save time. Keep crews motivated and projects ahead of schedule, leading to enhanced productivity and profitability.

BENEFITS

The Badazz Broom offers a multitude of advantages, beginning with its ability to significantly reduce labor costs and labor hours. The Badazz Broom eliminates idle time, allowing optimized workforce productivity. The Badazz Broom keeps the existing workforce motivated and attracts new talent to your team.

The Badazz Broom enhances efficiency and streamlines the paving and grading process, delivering smoother operations and project execution. In addition to its functional benefits, the Badazz Broom enhances curb appeal, elevating the overall appearance of the job site. The broom core was designed to be easily replaced or flipped in the field.

Our Badazz Broom's versatility shines as it efficiently removes millings from gutter pans and refines milled edges, showcasing its value in construction and maintenance projects.

Multiple Options

Choose the perfect fit for your needs:
Available in 3-foot or 5-foot core sizes, with the option for manual or hydraulic angle adjustment.

What Is the Badazz Broom exactly?

Currently holding a patent pending status, our groundbreaking skid loader broom attachment transforms the landscape of curbside cleaning. Remarkably, there exists no comparable product within the market, making it a true trailblazer in its field.

The Badazz Broom is equipped with a hydraulic system that facilitates lateral extension, allowing the operator to reach the curb. Additionally, it offers adjustable angling functionality, enabling users to direct dirt or gravel as needed. Its bristle composition combines poly and wire elements, allowing for effective sweeping and the ability to cut through heavier materials. Cores can be ordered with all poly if needed.

Shoveling Vs. Badazz Broom

The Badazz Broom revolutionizes the way we approach curb cleaning, offering numerous advantages over traditional manual shoveling. With the Badazz Broom, there's no longer a need for employees to take frequent breaks during the laborious process of curb cleaning. This innovative attachment is designed to streamline the cleaning process, eliminating the physical strain and exhaustion that often accompany manual shoveling. By automating the task, the Badazz Broom not only saves time but also preserves the energy and stamina of your workforce. This means your employees can stay focused and productive for longer durations without the fatigue and downtime associated with manual labor. In turn, this leads to increased project efficiency and reduced labor costs.

Furthermore, the Badazz Broom ensures a consistent and thorough cleaning job, reducing the chances of overlooking debris or uneven cleaning that can occur with manual shoveling. Its ability to reach curbs, sidewalks, and valley gutters without the need for physical contact or heavy lifting adds an extra layer of safety and convenience. Making it a clear choice over traditional cleaning methods.
